## Education

- 2016.9 – 2019.6    📌 **M.Sc. Computer Technology, Beijing University of Posts and Telecommunications, Beijing**
- 2012.8 – 2016.6    📌 **B.Sc. Information Security, North China University of Technology, Beijing.**  
*Professional Ranking First(1/57,GPA:91.16)*

## Experience

- 2018.6 – now    📌 **VMware,Inc.      Quality Reporter**  
Responsible for design and implementation Quality Reporter.  
This tool can not only automatic collect and analysis data, but also update and generate reports, and email to responsible team.
- 2018.1 – 2018.5    📌 **State Grid Cooperation of China      Linux Patch Automatic Management System**  
Acting as project leader.  
Responsible for pre-project research, system technical architecture, system deployment architecture and the secure transfer scheme between the patch files and the internal and external networks.
- 2017.2 – 2017.10    📌 **China Information Technology Security Evaluation Center**  
                         📌 **Vulnerability Elimination and Control**  
Acting as project leader.  
Responsible for building OpenStack cloud platform, making QCOW2 format virtual machine.  
Responsible for verifying vulnerabilities in operating systems, applications, and mobiles.
- 2016.11 – 2017.3    📌 **Sichuan Changhong,Inc.      Automatic Vulnerability Detection Tool**  
Responsible for the design, implementation and testing of sensitive directory detection, weak password vulnerabilities, and CSRF vulnerability scanning tools
- 2016.4 – 2017.2    📌 **Beijing Ruian,Inc.      Internet Application Analysis and Development**  
Responsible for the protocol analysis of the PC and Android clients, independently wrote and delivered the protocol analysis report, and completed the development of the corresponding HTTP template.

## Skills

- English-CET6(540)    Fluent in reading, writing and speaking competencies.
- Familiar with coding language such as Python, C and etc.
- Familiar with Computer Network, Data Structure, Database, Operating System and etc.
- Familiar with Linux System, such as CentOS, Kali and Ubuntu
- Familiar with network protocol analysis tools and web security scanning tools such as Wireshark, Nmap, BurpSuite and AWVS.

## Miscellaneous Experience

- Awards    📌 **First-class Scholarship(2016 and 2017)      Outstanding Graduates(Beijing, 2016)**  
                 📌 **National Encouragement Scholarship(2014 and 2015)**  
                 📌 **Third Prize of 7th National University Student Information Security Competition**  
                    *(Project: Dynamic ATM Keyboard Input Password Based on Two-Dimensional Code)*
- Thesis    📌 **Dynamically-Enabled Defense Effectiveness Evaluation in Home Internet Based on Vulnerability Analysis.**
- Certification    📌 **Information Security Engineer.** Awarded by MOHRSS and MIIT.
